|-----|----------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 4.1 | First Aid:           | <p><b>Ingestion:</b> DO NOT INDUCE VOMITING. Contact Safety Call +1 (855) 281-1742 or the nearest Poison Control Center or local emergency telephone number for assistance and instructions. Seek immediate medical attention. If vomiting occurs spontaneously, keep victim's head lowered (forward) to reduce the risk of aspiration.</p> <p><b>Eyes:</b> If product gets in the eyes, flush eyes thoroughly with copious amounts of water for at least 15 minutes, holding eyelid(s) open to ensure complete flushing. If the eyes or face become swollen during or following use, consult a physician or emergency room immediately.</p> <p><b>Skin:</b> Remove contaminated clothing and wash affected areas with soap and water. If discomfort persists and/or the skin reaction worsens, contact a physician immediately. Do not wear contaminated clothing until after it has been properly cleaned.</p> <p><b>Inhalation:</b> Remove victim to fresh air at once. Under extreme conditions, if breathing stops, perform artificial respiration. Seek immediate medical attention.</p> |
| 4.2 | Effects of Exposure: | <p><b>Ingestion:</b> May be harmful if swallowed. Severe burns of mouth, throat and stomach.</p> <p><b>Eyes:</b> Severe or permanent eye damage.</p> <p><b>Skin:</b> Severe irritation and possible burns.</p> <p><b>Inhalation:</b> Severe irritation of respiratory tract and mucous membranes; coughing, difficulty breathing.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

| 4.3                  | Symptoms of Overexposure:                  | <u>Eyes:</u> Redness, burning, irritation, and swelling around eyes.<br><u>Skin:</u> Redness, burning, itching, rash, blistering of skin.<br><u>Ingestion:</u> Nausea, vomiting, severe abdominal pain.<br><u>Inhalation:</u> Coughing, wheezing, swelling of throat, irritation in mucous membranes, difficulty breathing. |        |  |  |   |              |  |  |   |                  |  |  |   |                      |  |  |   |      |      |       |  |
| 4.4                  | Acute Health Effects:                      | May be harmful if inhaled. Material is extremely destructive to the tissue of the mucous membranes and upper respiratory tract. Severe burns of mouth, throat and stomach. May be harmful if absorbed through skin.                                                                                                         |        |  |  |   |              |  |  |   |                  |  |  |   |                      |  |  |   |      |      |       |  |
| 4.5                  | Chronic Health Effects:                    | May damage the lungs. May cause severe or permanent eye damage.                                                                                                                                                                                                                                                             |        |  |  |   |              |  |  |   |                  |  |  |   |                      |  |  |   |      |      |       |  |
| 4.6                  | Target Organs:                             | Eyes, Skin, Lungs (Corrosive).                                                                                                                                                                                                                                                                                              |        |  |  |   |              |  |  |   |                  |  |  |   |                      |  |  |   |      |      |       |  |
| 4.7                  | Medical Conditions Aggravated by Exposure: | Pre-existing dermatitis, other skin conditions, and disorders of the target organs (eyes, skin, and respiratory system) or impaired kidney function may be more susceptible to the effects of this substance.                                                                                                               |        |  |  |   |              |  |  |   |                  |  |  |   |                      |  |  |   |      |      |       |  |

## 5. FIREFIGHTING MEASURES

|     |                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                     |
|-----|---------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
| 5.1 | Fire & Explosion Hazards: | Non-flammable. May react with metals to release hydrogen gas, which can form explosive mixtures with air.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |
| 5.2 | Extinguishing Methods:    | Use fire-extinguishing media appropriate for surrounding materials.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                                     |
| 5.3 | Firefighting Procedures:  | As with any fire, firefighters should wear appropriate protective equipment including a MSHA/NIOSH approved or equivalent self-contained breathing apparatus (SCBA) and protective clothing. Fight fires as for surrounding materials. Hazardous decomposition products may be released. Thermal degradation may produce oxides of carbon, and/or nitrogen, hydrocarbons and/or derivatives. Fire should be fought from a safe distance. Keep containers cool until well after the fire is out. Use water spray to cool fire-exposed surfaces and to protect personal. Fight fire upwind. Prevent runoff from fire control or dilution from entering sewers, drains, drinking water supply, or any natural waterway. |                                                                                     |

## 6. ACCIDENTAL RELEASE MEASURES

|     |         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|-----|---------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 6.1 | Spills: | Before cleaning any spill or leak, individuals involved in spill cleanup must wear appropriate Personal Protective Equipment (PPE). Use safety glasses or safety goggles and face shield; use gloves and other protective clothing (e.g., apron, boots, etc.) to prevent skin contact.<br><u>Small Spills:</u> Wear appropriate protective equipment including gloves and protective eyewear. Use a non-combustible, inert material such as vermiculite or sand to soak up the product and place into a container for later disposal.<br><u>Large Spills:</u> Keep incompatible materials (e.g., acids, powdered metals) away from spill. Stay upwind and away from spill or release. Isolate immediate hazard area and keep unauthorized personnel out of area. Stop spill or release if it can be done with minimal risk. Wear appropriate protective equipment including respiratory protection as conditions warrant. Recover as much free liquid as possible and collect in acid-resistant container. Use absorbent to pick up residue. Avoid discharging liquid directly into a sewer or surface waters. |
|-----|---------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## 7. HANDLING &amp; STORAGE INFORMATION

|     |                           |                                                                                                                                                                                                                                                                                                                                                                                                         |
|-----|---------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 7.1 | Work & Hygiene Practices: | Avoid breathing mists or spray. Avoid eye and skin contact. Wear protective equipment when handling product. Keep out of the reach of children. Do not eat, drink or smoke when handling this product. Wash thoroughly after handling. Do not expose to heat and flame. Use only in ventilated areas. Keep out of the reach of children. Immediately clean-up and decontaminate any spills or residues. |
| 7.2 | Storage & Handling:       | Use and store in a cool, dry, well-ventilated location (e.g., local exhaust ventilation, fans) away from heat and direct sunlight. Store in acid-resistant containers. Keep containers covered when not in use. Avoid temperatures above 40 °C (120 °F). Keep away from incompatible substances (See Section 10). Protect containers from physical damage.                                              |
| 7.3 | Special Precautions:      | Keep away from clothing and other combustible materials. Empty containers may retain hazardous product residues.                                                                                                                                                                                                                                                                                        |

## 8. EXPOSURE CONTROLS & PERSONAL PROTECTION – cont'd

|     |                  |                                                                                                                                  |                                                                                     |
|-----|------------------|----------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
| 8.4 | Eye Protection:  | Safety glasses with side shields must be used when handling or using this product. A protective face shield is also recommended. |  |
| 8.5 | Hand Protection: | Wear protective, chemical-resistant gloves (e.g., neoprene) when using or handling this product.                                 |  |
| 8.6 | Body Protection: | A chemical resistant apron and/or protective clothing are recommended when handling or using this product.                       |  |

## 9. PHYSICAL & CHEMICAL PROPERTIES

|      |                                               |                                             |

## 13. DISPOSAL CONSIDERATIONS

|      |                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|------|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 13.1 | Waste Disposal:         | Review current local, state and federal laws, codes, statutes and regulations to determine current status and appropriate disposal method for the ingredients listed in Section 3. Any disposal practice must follow local, state, and federal laws and regulations. Contact the appropriate agency for specific information. Treatment, transport, storage and disposal of hazardous waste must be provided by a licensed facility or waste hauler. |
| 13.2 | Special Considerations: | U.S. EPA Hazardous Waste – Characteristic - Corrosive (D002)                                                                                                                                                                                                                                                                                                                                                                                         |

## 14. TRANSPORTATION INFORMATION

The basic description (ID Number, proper shipping name, hazard class & division, packing group) is shown for each mode of transportation. Additional descriptive information may be required by 49 CFR, IATA/ICAO, IMDG and the CTDGR.

SDS Revision: 2.1

SDS Revision Date: 8/20/2025

## DEFINITION OF TERMS

A large number of abbreviations and acronyms appear on a SDS. Some of these that are commonly used include the following:

## GENERAL INFORMATION:

|            |                                                                      |
|------------|----------------------------------------------------------------------|
| CAS No.    | Chemical Abstract Service Number                                     |
| RTECS No.  | Registry of Toxic Effects of Chemical Substances Number              |
| EINECS No. | European Inventory of Existing Commercial Chemical Substances Number |

## EXPOSURE LIMITS IN AIR:

|       |                                                                |
|-------|----------------------------------------------------------------|
| ACGIH | American Conference on Governmental Industrial Hygienists      |
| IDLH  | Immediately Dangerous to Life and Health                       |
| NOHSC | National Occupational Health and Safety Commission (Australia) |
| OSHA  | U.S. Occupational Safety and Health Administration             |
| PEL   | Permissible Exposure Limit                                     |
| STEL  | Short Term Exposure Limit                                      |
| TLV   | Threshold Limit Value                                          |
| TWA   | Time Weighted Average                                          |

## FIRST AID MEASURES:

|     |                                                                                                                                                                                      |
|-----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| CPR | Cardiopulmonary resuscitation - method in which a person whose heart has stopped receives manual chest compressions and breathing to circulate blood and provide oxygen to the body. |
|-----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## HAZARDOUS MATERIALS IDENTIFICATION SYSTEM: HMIS

## HEALTH, FLAMMABILITY &amp; REACTIVITY RATINGS:

|   |                 |
|---|-----------------|
| 0 | Minimal Hazard  |
| 1 | Slight Hazard   |
| 2 | Moderate Hazard |
| 3 | Severe Hazard   |
| 4 | Extreme Hazard  |

|                     |
|---------------------|
| HEALTH              |
| FLAMMABILITY        |
| PHYSICAL HAZARDS    |
| PERSONAL PROTECTION |

## NATIONAL FIRE PROTECTION ASSOCIATION: NFPA

| FLAMMABILITY LIMITS IN AIR: |                                                                                                                                       |
|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| Autoignition Temperature    | Minimum temperature required to initiate combustion in air with no other source of ignition                                           |
| LEL                         | Lower Explosive Limit - lowest percent of vapor in air, by volume, that will explode or ignite in the presence of an ignition source  |
| UEL                         | Upper Explosive Limit - highest percent of vapor in air, by volume, that will explode or ignite in the presence of an ignition source |

## HAZARD RATINGS:

|         |                 |
|---------|-----------------|
| 0       | Minimal Hazard  |
| 1       | Slight Hazard   |
| 2       | Moderate Hazard |
| 3       | Severe Hazard   |
| 4       | Extreme Hazard  |
| ACD     | Acidic          |
| ALK     | Alkaline        |
| COR     | Corrosive       |
| W       | Use No Water    |
| OX      | Oxidizer        |
| TREFOIL | Radioactive     |

## TOXICOLOGICAL INFORMATION:

|                                                                                                                       |                                                                       |
